## MINING, BUSINESS AND STOCKS.

## SITORS PLEASED WITH **BINGHAM MINING CAMP**

te and Boston Men Declare District Will Soon be Greatest Producer Of Any in World,

hat Bingham is destined to become greatest mining camp in the world will shortly exceed all others, was general expression of a party of te and Boston men when they reied last night after two days spent he great mining district. The opinwas expressed by men who have nt years in the mining world and

familiar with mines and mining.

familiar with mines and miningly further expressed their surprise t Sait Lakers knew so little of the at camp that is at their door. Fednesday morning a party of Butte it, consisting of Samuel Binder, Ty Kippe, Louis Brecktel, Thomasierts and J. L. Sampson, with W. E. bburd of Sait Lake went to Bingit to look over the camp. The first was spent in going through the ighem-Butte. Ohig Copper, Utahper and other big ones of the dist. The second day was spent in thing the mines in upper Carr fork climbing over into Middle canyon the Toole side and visiting the Utah all property. There they were met Walter B. Farmer, W. E. L. Dillay, E. A. Fordyce and E. H. Baxter, of Boston and among the largest kholders in the Utah Metals, who preceded the Butte party by seviations and the world."

days.
Gingham is certain to become the datest mining comp in the world."
Isred E. H. Baxter this morning, irtly before taking his train for the iton. Mr. Baxter represents some of heaviest interests in the Utah Metal at never saw such mineralization bein my life," continued Mr. Bax.

"and I will have to agree with tace J. Stevens as he speaks of it in it Copper Handbook, as being one verble mountain of ore and that the time I come when it will lead the districts the world. I never realized what rest section it was until I visited it. as led to believe much, but it was are.

VERDURE WILL GROW.

I am much interested in landscape dening, and one of the things that tick me was that the dumping unds of the Utah Copper and other apanies there, will surely become cred with verdure as the years go and the canyon will be made beau-

and the canyon will be made beautil.

It seems terrific the amount of ore t is being sent out of the canyon h day. Last year 2,000,000 tons of were taken out and this year it will relose to 50 per cent more. It is nething enormous when you think it 10,000,000 tons have been shipped of the camp in five years and that is rapidly increasing. The pay roll of the camp must be se to \$40,000 a day, and that in itself something gigantic. Think of a pay if about \$1,000,000 a month or more, it mines paying dividends to stockders of close to \$7,000,000 a year. I was in Salt Lake 25 years ago, but does not look much like the same itee. I can readily see the reason for rapid growth by having such and as Bingham at its door."

One thing that is strange to me is it more of the residents of Sait Lake that familiar with the camp. To don people it looks like a person by has long been a resident of Boston it has never been to Bunker Hill nument.

PLEASED WITH PROPERTY.

PLEASED WITH PROPERTY.

PLEASED WITH PROPERTY.

If am more than pleased with the the Metal. It has an enormous warpower that is undeveloped and this he transportation tunnel, alone, ald yield a fortune in dividends, if bound of ore was never found."

Thomas Roberts said:

I cannot compare Butte with Bingna. At Bingham everything can be so much cheaper. Tunnels can run in everywhere to get depth on ore. The water can be easily hand and mining is a real pleasure. I

d and mining is a real pleasure. I yer saw a better located district and arry Kipp said:

Comparisons are not good, but after-nding 25 years in the mines of Butte, un somewhat familiar with costs, tte never could compete with Bing-m. It is the greatest mining dis-et in the west today."

#### XCHANGE CLOSES TOMORROW. cal Market Shows Slightly Better

Tone During Morning. dembers of the Salt Lake stock and

ning exchange will enjoy a real ting tomorrow and at 8 o'clock in morning they will leave in autobiles for Provo. The party will nsist of about 60 people and about automobiles will make the trip. ough members of the exchange own tomobiles to carry the entire party. the brokers will be away, there will no call of the exchange tomorrow, d the market will be closed for the

tire day.

Frading on the local exchange showa slight improvement in some of
e securities this morning, while the
aount of trading was low in the exsme. An odd lot of Black Jack sold S cents. Cedar Talisman was down 11½ cents and Columbus Consolited commenced sagging after the g jump the stock participated in fring the week. East Tintic Developent sold at half a cent this morn-

Ohto Copper struck the toboggan ad slid off ten points during the sesm. From \$2,50 it went down to .40. Although it is understood that

### New Incorporations

The Homber Mining & Manufactur-ing company of this city filed an amendment to its articles of incorporation Thursday with the county clerk changing its name to the Homber Paint Manufacturing company.

### **BUSINESS AND REALTY**

The new smelter town at Tooele is said to be on the boom, with an unsatisfied demand for houses of all kinds. Houses are engaged as soon as the foundations are laid, according to C. H. McGurrin of the Sait Lake Security & Trust company, who has just returned from there. The travel between the junction and the new town has been so heavy that it has been found necessary to increase the regular number of cars on the Tooele Railroid.

H. P. Larsen, formerly of Ephraim, but who recently located in Salt Lake, has purchased for investment the Es-ther apartments at 76 First avenue for \$23,000, from Dr. G. R. Guthrie.

Ross and wife to M. H. Pen-Reports from the Iditarod are favorable. The string output of the Innoko and Iditarod combined is estimated at \$1,250,000. Mining on the Iditarod creeks has been carried on in the most primitive way, without machinery.

MINES ACTIVE AT GOLD CIRCLE.

New Discovery in Formation Speaks Well of the Future.

Through the discovery that the veins in Gold Circle are not fissures in rhyolite but a contact between rhyolite and andesite, S. M. Levy, manager of the Gold Circle Crown company, who has just returned, believes that the camp will be much better with depth. Another bit of news he says is that the Zion's S. B. & Trust Co. to Martha A. Fairclough lots 13 and 14, block 1, Oakland Place Sub. Ledward D. Swan et al. to Alice Fairclough, lots 13 and 15, block 6, Paradise Add. Maggie B. Esmeralda will begin leasing again. The Hartley mill is now operating on ore extracted from the Esmeralda by

The Hartley mill is now operating on ore extracted from the Esmeralda by leasers last year.

"The Sleeping Beauty property looks very good," says Mr. Levy, "and the company's mill is now under construction. The latest principal find is on the Hill Side claim, owned by Messrs, Noble, Johnson and Stone. They have opened a fine show of mineral, some of it being high-grade gold rock. The owners of the Judge property have succeeded in bringing such results to view that they are contemplating the installation of their own milling plant. Leslie Savage of Sait Lake City has opened his main contact on the Elko Prince group by means of a series of cuts for at least 2,000 feet, and in nearly every cut he has found milling values in gold. The 'Rex is getting its mill into condition to operate at full capacity, there being some minor trouble with the sliming department. The Gold Circle Crown looks good, and we are doing a great deal of deep work. The tunnel is now in over 1,200 feet, and we feel satisfied with conditions.

"All in all, the camp has improved."

fled with conditions.

"All in all, the camp has improved greatly since my last visit."

SUNSHINE MAY PAY.

Although developments at the Boston Sunshine property have not been satisfactory of late, the mill has been grinding steadily away and pilling up earnings for the company. It is believed that a 2-cent dividend will be posted some time this month. This will bring the earnings of the company, in about a year and a half, up to \$19,500.

The plant was started a little over a year and a half ago and from the day it started it has been more than paying its way. The first dividend was 2 cents a share, followed by a 2-cent dividend.

A week from today the famous Tintic

A week from today the famous linted dividend payers will announce a few things of interest to their stockholders. Park City dividend payers are also to be heard from this month. Among the mines that will be heard from this month are Iron Blossom, Boston Sunshine, Uncle Sam, Colorado, Grand

Guarding the Kiddles-About 15 deputies were detailed from the sheriff's office this morning to Wanda-mere, to overlook the school children and prevent accidents and drownings.

Cleaned out the Coop—Mrs. Scott of Fourteenth South and Ninth East street had all of her chickens stolen last night,

Lecture on "Love"-At the First Unitarian church, 138 south Second East, Countess Aurelia Bethlem will preach a sermon on "Love," Sunday vening at 8 o'clock. Public cordially

Working Overtime—P. J. Moran's men received orders Thursday, to work two hours a day overtime, on account of the work being behind hand. This order may be operative for the remainder of the season.

pany maintains no office in Sait Lake.

M. M. Johnson, formerly chief of the Newhouse staff of engineers, leaves to-day for New Mexico where he will start development work with drills and by shaft on the Tyrone group of claims at Silver City, which were recently taken over by him. At Silver City he will meet representatives of the Mines Financing company of New York and the Nipissing Mines company, both of which companies have become associated with him in the work. Fees from Insurance—The sum of \$51,487.77 has been received up to date by the state insurance department as fees for 1910 from insurance companies doing business in Utah.

Saturday Half Holiday—The furni-ture, dry goods, paint and a number of other lines of business begin to-morrow the regular Saturday closing at 1 p. m. for the summer.

Bishop Funsten Here—Bishop Funsten of the diocess of Idaho, arrived in the city this morning, from Boise. He is here to officiate in St. Mark's cathedral during the Rowland hall commencement, which begins Saturday evening, with a recital by the plano department in the First Congregational church.

Lake Dropped a Bit-The level of the great lake has receded 1-10 of foot in the last two weeks, and is low 7 feet flat. Whether there is a further rise this season depends on the preceditation. the precipitation.

### TRIP CUT SHORT.

E. L. Godbe Thinks Will See Doctor Before Starting-Operation Follows.

Just as Ernest L. Godbe, manager firector of the Consolidated Pioche Mines company had decided to leave for Pioche with Ernest Hodges last night, he concluded that he had better see a physician before departing. He therefore sought Dr. A. J. Hosmer, It did not take the physician long to ascertain that Mr. Godbe was in no condition to leave the city and further than that that a hospital was the

place for him.

Mr. Godbe was hurridly taken to the hospital where an operation for appendicitis was performed today. At the Holy Cross hospital it was declared that the operation was successed and that his condition was as good

clared that the operation was successful and that his condition was as good as could be expected.

For several weeks Mr. Godbe has not been feeling in the best of health. For a time it was believed that he was suffering from stomach trouble. At the time of his arrival at the hospital his malady had reached a dangerous point and the operation was a serious one.

### PEACE PROCLAIMED.

Striking A. D. T. Messenger Boys Return to Work This Morning.

After a day's thrill in a "strike" the messenger boys, some 20 odd, of the A. D. T. and Western Union, were glad to return to work last night. Because of a disagreement, it is said, between of a disagreement, it is said, between one of the messenger boys and the management, which resulted in the boy being dismissed, the force of messengers went on strike yesterday morning, and enlivened things along Main street during the day. At night, however, after the advice of friends they meekly resumed their jobs. As they had presented no grievance to Manager Long, he felt that no explanation was needed—and with the exception of the discharged boy all are back at work to-day.

## Will Sell

# MARKET CLOSED WEAK BUT ACTIVE

New York, June 3.-The higher London prices this morning brought a response in the opening steck market here, where advances were general. The trading was moderately active and the tone much quieter than for several days past. Great Northern preferred was lifted 14. Rock Is-

moderately active and the tone much quieter than for several days past. Great Northern preferred was lifted 14. Rock Island preferred and Southern Railway preferred 1 and Reading. Baltimore & Ohio, New York Central, Union Pacific and Canadian Pacific large fractions.

Speculation was very irregular. Selling orders carried prices down sharply after business began. Then there was a brisk raily which carried the market up again to the opening figures, followed by another decline.

Only a few of the leaders fluctuated as much as a point. General Electric rose 24. Missouri Pacific and Great Northern Ore Certificates 14 and Wabash preferred, Pittsburg C. C. & St. Louis and Westinghouse Electric 1. Toledo. St. Louis & Western preferred lost 25.

The stock market was narower than on previous days and most of the operations were of a professional nature. That element assumed that recoveries were due to supporting measures by interested parties and they sold stock on railles. Before noon the decline showed a loss of 24. Reading and American Locomotive 28. Southern Pacific, United States Steel, Amalgamated Copper, Consolidated Gas and St. Paul 13 and Atchison, Northern Pacific, New York Central, American Smelting, Anaconda and others 1 or more. Bonds were easy.

Another wave of liquidation swept over the market under which orices crumbled away in a sensational manner. Market leaders, such as Union Pacific, Reading and United States Steel; American Car, American Locomotive, Consolidated Gas and St. Paul The market was without support. Union Pacific 8. Market and American Car, American Locomotive, Consolidated Gas and Anaconda 25. Amalgamated Copper 27. and Chesapacke & Ohio, St. Paul and Atchison 2.

The market became rather demoralized and losses of 3. points and upward were numerous. Union Pacific slumped 53. Consolidated Gas 5, Brooklyn Union Gas 74. Reading 4, Interborough-Metropolitan preferred 45. St. Paul, Southern Pacific and American Car, American Locomotive 35. and Atchison, New York Central, Great Northern, Unit

curred later but the market was very feverish.

The market closed weak and very active and near the lowest prices. Occasional covering by shorts to realize profits constitued the only checks to the decline. Union Pacific's loss reached 6%, Central Railroad of New Jersey 10, Reading 4% and St. Paul, Southern Pacific, Northern Pacific, New York Central. United States Steel, Amalgamated Copper, American Locomotive, American Smelting and Interborough-Metropolitan preferred 3% to 4%.

St. Louis, June 3.-Wool, lower. Territory and western mediums, 16 1/2 @22; fine mediums, 17@18; fine, 12@14. LONDON.

London, June 2-At the sheepskin sale today 5,800 bales were offered. The moderate selection met with a spirited demand from the home trade and the continent at about unchanged. Fine combings, however, often sold 5 per cent dearer and heavy skins 5 per cent lower than from the last sale.

### PRODUCE.

CHICAGO.

CHICAGO.

Chicago, June 3.—Removal of selling pressure today allowed the wheat market to prop itself up like a patient with pillows. Speculative offerings were light and the stength of corn acted as a stimulus. Laick of any reassuring developments regarding the spring crop outlook, the natural tendency to expect a raily after a break and the rate at which the local stock of wheat was being disposed of were all subjects receiving atention and in a less degree the uncertainty as to insect damage.

The market opened 1/2 lower to 1/2 higher and then continued upward. September started 1/2 to 1/2 followed.

Corn was sharply higher because of the cold weather. There was a big rush of buying. The market showed continuous strength with commission houses generally on the bull side. September started 1/2 to 1/2 higher at 30% and then went on up to 50%.

Trade in oats was light. The market was a triffe firmer with other grains. September opened 1/2 higher at 30% and hung to that figure, provisions started easy on scattered selling but reacted with corn and wheat, pork and ribs scoring a slight advance. First prices were 71/2 lower to 7/2 higher, with the September delivery at 2.57/2 for pork, 11.85 for lard and 11.90 for ribs.

Wheat—Nearing the end of the session rain northwest proved an argument for the bears. So did an estimate that according to the spring returns Texas might yield 27,000,000 bushels. The close was weak, with September at 50%, a net loss of 1/2 cash corn: No. 2, 596/4; No. 2 white, 52% 1/2 is No. 3 vellow. 51/2 for loss was weak, with September at 53%, a net loss of 1/2 cash. 3667.

### SINGER MELON WILL BE WORTH \$30,000,000

New York, June 3.—One of the largest "melons" ever sliced will be cut by the Singer Manufacturing company which has called a meeting of directors on June 18 to declare a \$30,000,000 stock dividend to its share-holders. The company is capitalized at \$30,000,000 and the stock dividend is 100 per cent. The company has a surplus of \$30,000,000.

### RUSSIAN GOVERNMENT STILL PURSUING THE JEWS

St. Petersburg. June 3.—In furtherance of its purpose to drive back into the pale—the district formed by the Polish provinces of the Ukraine—all Jews who cannot establish a legal right of residence outside its confines, the Russian government is now pursuing a close inquiry regarding those engaged in the drug business or who claim to be so engaged.

The proprietors of the drug stores chiefly are Jews and their employes as well as salesmen for drug houses traveling in the inverior are now called on not only to exhibit pharmaceutic certificates but to satisfy the authorities that they are actively occupied with the business for which they are licensed.
